Members of the Arizona Legislature

From: J. Michael Low
Director of Insurance

Re: 1980-1981 Annual Report of the Arizona
Department of Insurance

It is once again my privilege to submit for your review the Annual Report of the Arizona Department of Insurance. This Sixty-eighth Annual Report describes the major regulatory activities and accomplishments of the Department, together with summarizing the information relevant to those insurers authorized to transact business in Arizona during 1980. Hopefully, this summary of Department actions and the insurer data reported upon hereafter, will provide a complete and accurate picture of the vitality of the $2 billion Arizona insurance industry and the effectiveness of this agency in carrying out its regulatory responsibilities.

As I reported last year, one of my principal objectives upon being appointed to the office of Director of Insurance in January of 1980, was to implement the recommendations of the Auditor General as set forth in his 1979 performance audit report regarding the Department. I am pleased to relate that in a December, 1980 follow-up review of the Department's consumer complaint function, the Auditor General acknowledged several of the significant changes that had taken place. The report comments in relevant part:

> We found the Department has gone beyond many of the recommendations in the previous audit to improve regulation of agents and companies and to assist consumers. More agent disciplinary hearings are held, more market conduct examinations of companies are made and a special advisory committee has been appointed to help control abuses in the sale of health insurance to the elderly. See Auditor General Report 80-6, A Performance Audit of the Department of Insurance Consumer Complaint Function, December,1980, page 1.

Apart from addressing in a positive way the suggestions of the Auditor General, I have endeavored to chart a course designed to bring Arizona into the mainstream of state insurance regulation. Indeed, the continuing ability of the states to act as the principal supervisors over this complex and significant interstate industry is directly dependent upon improving the overall quality of state regulation in a responsive and efficient manner. Although recent developments at the national level have diminished the likelihood that a substantial effort will be made to federalize the system of insurance regulation, a subtle erosion of the authority of the states continues to occur. Recent examples of federal impingement upon the historic role of the states in regulating the insurance industry include the federal certification scheme for Medicare supplement policies, popularly referred to as the Baucus Amendment, and the just enacted Risk Retention Act.

In my view, if the states are to effectively preserve their primacy in regulating the business of insurance, it is of paramount importance that they achieve a high degree of uniformity and consistency in their laws, together with providing effective remedies and responses to the problems of insurance consumers. Toward that end, the Department during the past year has initiated, requested and supported changes in legislation and rules designed to emphasize Arizona's commitment to uniform, cost-effective regulation in the public interest. Indeed, the Department has sought to lessen governmental involvement in the insurance marketplace by promoting the concept of competitive rating for the property and casualty lines. While de-emphasizing the role of government in establishing insurance price levels, the Department has significantly expanded both its public information activities and its overall enforcement effort. In this connection, the Department has greatly increased the tempo of its investigative and enforcement proceedings, cracking down hard on perpetrators of fraudulent and misleading sales practices, particularly those involved in the sale of health insurance coverages to the elderly. Finally, this agency has undertaken a comprehensive consumer information program aimed at broadening the public's knowledge of insurance prices, products and practices.

In order to better understand the nature of the specific actions that were undertaken in furtherance of these objectives, it would probably be useful to outline the organizational structure of the Department and summarize the general activities of its component divisions during fiscal year 1980-1981.

I. Organization of the Department

The Insurance Department is organized into six divisions. The divisions include Administration and Licensing, Life and Disability, Property and Casualty, Examinations and Admissions, Consumer Affairs and Investigations, and Hearings. Each division has specific duties and obligations arising under the Arizona Insurance Laws. Additionally, the Director is assisted in the administration of the agency by Mr. Chester Flaxmayer, the Special Assistant to the Director.

The Administration and Licensing Division is headed by Mr. Walker Riddle. The Licensing Supervisor is Mr. Robert Church, CLU. This division provides basic administrative support to the Director and oversees the licensing of all insurance agents in this state. During fiscal year 1980-1981, the Department issued 6,901 new agents licenses and renewed 11,961 existing agents licenses. The total number of licensees at the end of the fiscal year was 20,560. Several changes were initiated in licensing procedures in order to streamline the licensing process and improve the capability of the Department to effectively prescreen applicants. These changes included enacting a regulation which permitted the issuance of a conditional license prior to the final fingerprint clearance (thus eliminating the long delays experienced in processing the fingerprints), using the state computer to type license forms, discontinuing the fingerprinting function by Department employees and prescreening all applications over-the-counter in order to promptly correct and clarify errors disclosed on the application form. It should also be reported that legislation which was requested and enacted in 1980, greatly increased the efficiency of the licensing section by providing for a staggered monthly license renewal program, thereby eliminating the workload problems generated by the annual October 1 license renewal date under the prior law.

The Life and Disability Division is supervised by the Assistant Director, Mr. Earl Nagel, CLU. This division is responsible for reviewing all policy forms and advertising material for life insurance, health insurance, hospital and medical service corporation coverages, credit insurance and annuities in order to ensure that such forms are consistent with the requirements of the Arizona Insurance Laws and the regulations of the Department. During fiscal year 1980-1981, the division approved 17,558 forms, while disapproving 569. Division personnel focused much of their attention upon reviewing Medicare supplement insurance policies and advertising material, television solicitation scripts and hospital indemnity policy forms and related advertising. The division has the responsibility of overseeing several significant new programs, including the Medicare supplement insurance disclosure and minimum standards regulation, the life insurance replacement regulation and the minimum loss ratio requirements for individual accident and health insurance coverages.

The Assistant Director also served as the Department's liaison with the Senior Citizens Health Insurance Advisory Committee, overseeing the Committee's activities in conducting a series of public hearings and meetings throughout the state. The Committee, which consisted of one legislator, one former legislator, two members of the Governor's Council on Aging, the head of Arizona's Medicare Assistance Program and other concerned and knowledgeable citizens, provided senior citizens with a forum to discuss their experiences and problems relating to health insurance coverages, such as Medicare supplement and cancer policies. The Committee conducted public meetings in Sun City, Tucson, Prescott, Mesa, Yuma, Apache Junction, Flagstaff, Kingman, Bisbee and Phoenix. These hearings dramatized the concerns and problems of the elderly regarding a wide range of insurance issues, including abuses in overselling of insurance and the difficulty in determining the exact amount of benefits provided under certain coverages. The Committee made specific recommendations to the Department to seek legislation regarding the enactment of minimum standards for Medicare supplement policies, a strong criminal penalty whenever misrepresentations are made and an enforceable unfair claims settlement practices standard. As will be discussed hereafter, the Department was successful in obtaining passage of appropriate insurance legislation during the 1981 Regular Session of the Arizona Legislature.

The Property and Casualty Division, under Chief Deputy Director, Mr. Emil Barberich, saw a substantial change in its basic function with the enactment of Arizona's competitive rate law in 1980. This measure, which received the strong support of the Department, converted Arizona's rate regulatory scheme from a prior approval system to an open competition format. The Department's role has been redefined to one of monitoring competitive activity as opposed to establishing appropriate price levels. The impact of the new competitive rate law redounded to the direct benefit of Arizona policyholders. Companies have promptly responded to market conditions and favorable trends in Arizona loss experience. Policyholders, in both the commercial and personal lines, have substantially benefited from the increased activity. Additionally, this change in insurance regulatory philosophy had the practical consequence of removing an unmanageable administrative burden imposed upon the Property and Casualty Division to adequately review in excess of 12,500 rate filings annually. Now, the division focuses its attention on reviewing all property and casualty policy forms to ensure compliance with Arizona requirements, together with administering the new qualified service company regulation, which establishes a complete regulatory program for the estimated 150 companies selling auto service contracts, home warranty plans and appliance service contracts in Arizona.

The Examinations and Admissions Division is headed by Mr. Rex Lane, CFE. The division conducted 141 financial examinations of insurers authorized to transact business in Arizona during fiscal year 1980-1981. The division also prescreened and authorized the admission of 64 new Arizona insurers and 58 foreign and alien insurers. Indeed, it should be noted that as of June 30, 1981, Arizona had licensed 1,714 insurers, of which 573 are domestic companies.

The division continued the program begun last year of hiring college students with insurance and accounting backgrounds to work throughout the summer with senior examiners of the Department on actual field examinations. It is hoped that following graduation several of these student trainees will be available to work for the Department as full time examiners.

This division also is responsible for the collection of premium taxes. During fiscal year 1980-1981, $32,523,464 were collected and remitted to the State General Fund, together with another $1,488,837 in license and miscellaneous fees. When the various premium tax allocations that are paid to the Industrial Commission, the Highway Patrol Retirement Fund and the Firemen's Relief and Pension Fund are added together, the total premium taxes and fees collected on behalf of the state by the Department during 1980-1981, was $43,068,762. By way of contrast, the Department's entire budget for the same period of time was $1,531,681.

The Consumer Affairs and Investigations Division is responsible for the dual function of carrying out the Department's consumer assistance program and conducting investigations for possible administrative hearings or litigation regarding violations of the insurance laws and the Department's regulations. This division, which was headed by Jerry Wilson during 1980-1981, also includes the Tucson office of the Department under the direction of T. E. Morales.

During the past fiscal year, the division received over 3,700 written complaints and approximately 11,500 telephone complaints from Arizona policyholders and claimants. The division, acting as an informal arbiter and go-between, was able to successfully assist Arizona policyholders in obtaining settlements from their insurers in an amount of approximately $2.4 million. Moreover, the division established a statewide consumer hot line (1-800-352-5485) so that policyholders throughout Arizona could contact the Department if they had questions or problems relating to insurance. The hot line generated more than 1,250 telephone calls from Arizona communities outside Maricopa County during the six months prior to the close of the fiscal year. The division also participated in the program of disseminating interesting and informative materials to the public, including a homeowners premium comparison, a personal lines complaint ratio, a homeowners informational brochure and other topical insurance information.

The Hearing Division, under the leadership of Mr. Jeff Larson, Chief Hearing Officer, is responsible for conducting all disciplinary proceedings against companies and agents, as well as conducting all hearings on acquisitions, mergers and withdrawals involving Arizona insurers. The division, which also includes Ms. Andrea Lazar, Hearing Officer, significantly increased the disciplinary actions that were taken during fiscal year 1980-1981, resulting in 23 revocations and 37 suspensions of agents' licenses. This figure contrasts with the total of 15 suspension and revocation orders that were issued during all of calendar year 1979, and dramatically evidences the Department's commitment to effectively enforcing the insurance laws, especially in those cases where there is evidence of fraud, misappropriation of premium or misrepresentation. Indeed, the efforts of the Department in this regard have included innovative, well publicized fraud investigations such as the Medicare supplement "sting" operation which I reported upon last year. That action of the Department resulted in disciplinary orders being entered against ten insurance agents and one insurer. Moreover, the insurer involved also had to establish a fund to pay previously denied claims to policyholders who believed that due to misrepresentations that were made at the sales presentations such claims should have been paid. Approximately $80,000 was paid to 654 Arizona senior citizens due to the Department's enforcement effort in this case. While not of the same magnitude, a similar settlement was reached with another insurer, following a Department investigation, that resulted in the payment of in excess of $31,000 to 24 Arizona policyholders who had been misled into purchasing coverages that failed to pay the full benefits expected.

The Hearing Division also was responsible for issuing 13 supervision orders against insurance companies in order to protect Arizona policyholders against the potential of insurer insolvency. However, in all cases, the grounds for the supervision were either remedied or the company withdrew from business after reinsuring all policies into solvent insurers approved by the Department.

Finally, this division was responsible for developing and drafting all Department regulations. The rules which were adopted during the past fiscal year include:

> R4-14-204. This rule streamlines the regulation over surplus line insurers by permitting the Department to publish a list of companies that meet the requirements to issue surplus line coverages in this state.
>
> R4-14-215. This rule establishes minimum standards of conduct and disclosure for all insurers and agents who attempt to replace existing life insurance policies.
>
> R4-14-216. This rule establishes minimum standards for language simplification to be used in all life and health insurance policies issued in this state.
>
> R4-14-405. This rule eliminates the separate examination requirement for health care services organization agents. Such agents will now be licensed upon successful completion of the uniform accident and health examination administered by the Educational Testing Service.
>
> R4-14-407. This rule prescribes a comprehensive regulatory scheme over qualified service companies (*i.e.*, firms that sell auto service contracts, home warranty plans and appliance service contracts).
>
> R4-14-606. This rule requires both disclosure requirements and minimum standards for Medicare supplement insurance policies that are sold in this state.
>
> R4-14-607. This rule prescribes minimum loss ratio requirements and the form of the actuarial certification required of all individual accident and health insurance policies issued in this state. The regulation establishes standards by which the Department can

assure that the benefits paid are reasonable in relation to the premium charged for such policies, as required by ARS §20-1342.02.

R4-14-706. This rule authorizes the issuance of a conditional license pending the receipt of the final fingerprint clearance in order to obviate substantial delays that have recently developed in the processing of an applicant's fingerprints.

R4-14-707. This rule eliminates the requirement that an applicant for a variable annuity license must pass a Department examination due to the fact that there already is a comprehensive licensing requirement under the federal securities laws.

Proposed Rule R4-14-801. This rule will establish unfair claims settlement practices standards for the fair and prompt handling of the approximately $1 billion in insurance claims annually paid in this state.

The foregoing is intended to briefly review the general activities of the Department during fiscal year 1980-1981. Again, the emphasis of the Department has been to undertake a reasonable and balanced regulatory program aimed at eliminating fraudulent sales activity, protecting against insurer insolvency, increasing the public's knowledge and interest in topical insurance matters and rendering uniform, consistent and responsible regulation over the Arizona insurance industry.

II. 1981 Arizona Insurance Legislation

The 1981 Regular Session of the Arizona Legislature was one of the most productive in recent memory from the standpoint of enacting significant insurance legislation. All six of the bills requested by the Department were passed by the Legislature and signed into law by Governor Babbitt. Additionally, an emergency measure authorizing the reinsurance of all medical malpractice policies written by the Arizona Joint Underwriting Plan was enacted during the session. Because of the regulatory significance of the new insurance legislation, I thought it would be useful to briefly summarize these bills:

H.B. 2127. This measure makes it a Class 5 felony to make a knowing misrepresentation in connection with the sale of insurance. A Class 5 felony is punishable by a prison term not to exceed two years and a fine not to exceed $150,000. The Department sought this legislation as part of its overall crackdown on the making of misrepresentations in connection with the sale of Medicare supplements and other limited health insurance policies to Arizona senior citizens. Previously, the making of a misrepresentation in connection with the sale of an insurance policy was only a misdemeanor.

H.B. 2187. This act authorized the Director of Insurance to adopt the NAIC Model Medicare Supplement Disclosure and Minimum Standards Regulation. This legislation brings Arizona into compliance with Public Law 96-265, the Baucus Amendment, and, therefore, preserves the continuing role of the Department in regulating such coverages.

H.B. 2188. This act is the NAIC Model Unfair Claims Settlement Practices Act. The bill defines unfair claims settlement practices, authorizes the Director to adopt the NAIC Unfair Claims Settlement Practices Model Regulation and provides for civil penalties relating to violations of the act and other sections of the Unfair Practices and Frauds Article of the Arizona Insurance Laws. The act was requested by the Department in order to provide clear and meaningful guidelines for both the insurance industry and Arizona policyholders regarding the acceptable procedures and time periods for the processing and settlement or rejection of insurance claims. It should be noted that the Auditor General suggested that the Department seek this legislation in connection with his 1980 performance audit of the Department's consumer complaint function.

H.B. 2189. This measure amended the existing laws relating to surplus line insurance. It increases the surplus line broker's bond from $2,500 to $20,000, while at the same time increasing the capital and surplus requirements for foreign surplus line insurers to the same amount presently required of authorized full legal reserve insurers. It also increases the public depository requirements for alien insurers to $1.5 million. Finally, the Director is empowered to periodically publish a list of surplus line insurers based on certifications provided to him by brokers; the brokers then must restrict all surplus line business to those insurers designated on the list. This law substantially modernizes the regulation of surplus line insurance in this state and affords greater protection to Arizona policyholders purchasing coverages from such unauthorized insurers.

H.B. 2249. This act is the NAIC Model Insurance Information Privacy Protection Act. This law, which will take effect on April 1, 1982, establishes standards for maintaining the confidentiality of certain information regarding policyholders, together with providing policyholders and applicants for insurance the right to review files containing insurance information about them and to correct erroneous information that may be located in such files. Arizona is one of the first states to enact this model law which not only should redound to the direct benefit of all Arizona policyholders, but also should forestall the impetus for federal privacy legislation.

S.B. 1088. This measure remedied a loophole in the existing law relating to the regulation of hospital and medical service corporations like Blue Cross and Blue Shield of Arizona. The Arizona Attorney General had previously issued an opinion that such corporations were not subject to the rulemaking authority of the Director. S.B. 1088 remedies this oversight and subjects the contracts of such corporations to all rules of the Director that are applicable to health insurers.

S.B. 1098. This emergency law authorized the reinsurance of all professional liability policies written by the Arizona Joint Underwriting Plan Board during the five-year period of time that the AJUP was in operation. This measure empowered the Board to enter into a reinsurance agreement and to conduct an assessment against all casualty insurers writing business in Arizona over a three-year period of time in an amount not to exceed $5,050,000 in order to fund any such reinsurance agreement. It should be noted that the AJUP was able to successfully consummate such a reinsurance agreement with Skandia Reinsurance Corporation on April 1, 1981, the effective date of the emergency enactment.

The foregoing summarizes the significant insurance legislation which was requested by the Department and enacted by the Thirty-fifth Legislature. I would like to specifically acknowledge the aid and effort of all members of the respective insurance committees of the Legislature, the Senate Commerce and Labor Committee and the House Banking and Insurance Committee, in enacting this important insurance legislation. Specifically, many of these bills were initiated and shepherded through the legislative process under the guidance of Senator Jim Mack of Tempe, Chairman of the Senate Commerce and Labor Committee, and Representative Bill English of Sierra Vista, Chairman of the House Banking and Insurance Committee.

III. Proposed 1982 Legislation

One of the responsibilities of the Department is to propose amendments or additions to the insurance laws for consideration by the Arizona Legislature. In light of the major changes effected during the 1981 Regular Session, the Department will not be proposing any substantive changes for the upcoming session. Rather, only minor housekeeping measures will constitute the Department's legislative agenda for the 1982 session.

However, it should be noted that an extremely significant proposal relating to establishing a competitive rating system for workers' compensation insurance will be advanced for legislative consideration by the Governor's Workmen's Compensation Rating Study Commission. I was honored to chair this Commission on behalf of the Governor and, to my way of thinking, the proposal which the Commission has developed merits the strong support of all who believe that the marketplace, and not government, should act as the principal regulator over insurance rates. I suspect that this proposal by the Governor's Commission will be the primary insurance issue considered during the Second Regular Session of the Thirty-fifth Legislature.

IV. Conclusion

The Arizona Department of Insurance is committed to working with the Legislature, the insurance industry and the public to improve the overall quality of regulation in this state. The vitality of the industry, coupled with Arizona's favorable business climate, portends a bright future of continued growth and competitive activity. The role of the Department will be to maintain a balanced and responsible regulatory environment in which the insurance industry prospers and the Arizona consumer is well served.

PERSONNEL OF THE ARIZONA DEPARTMENT OF INSURANCE

EXECUTIVE STAFF

J. Michael Low, Director

Chester Flaxmayer, Special Assistant to the Director

Emil L. Barberich, Chief Deputy Director and Supervisor of Insurance Rates

Rex Lane, Chief Examiner

Earl T. Nagel, C.L.U., Assistant Director

Jeffrey P. Larson, Deputy Director

Marc Stern, Deputy Director

Walker Riddle, Business Manager

William K. Robinson, Actuary
